

Hatch Stuffer™

An Insulation Innovators Product

Patent Pending

ABOUT:

Hatch Stuffer provides a quick and effective way to insulate and seal an attic hatch. By the nature of its design, the Hatch Stuffer keeps the conditioned air inside the house where it belongs. Once filled with insulation, the Hatch Stuffer fits within the attic opening. Its flexible construction allows the Hatch Stuffer to provide a custom fit. Once in place, the Hatch Stuffer can easily be removed and reinstalled to provide accessibility to the attic. It's durable and made to last for years!

BENEFITS:

- Durable
- Meets New Energy Codes
- Fast Easy Installation
- Blown-in Insulation Compatible
